

PERMIT-REQUIRED CONFINED SPACE ALTERNATE ENTRY FORM

Use this form to temporarily enter a permit-required confined space using Alternate Entry Procedures (no permit required), which is only valid for the duration of work being performed and for no more than 8 hours. Alternate Entry may be used when the **only** hazard in the space is an actual or potential hazardous atmosphere that can be controlled with forced-air ventilation alone. If these conditions change, a Confined Space Entry Permit is required. Review the confined space assessment to evaluate the space, and review the work to be performed within the space.

ATTENDANT(S):	

Requirements

1. If work being done inside or near the space can introduce a new *serious* hazard (e.g., welding, chemicals, steam, unguarded or unprotected energized electrical equipment, painting fumes), a Confined Space Entry Permit is required if the hazard cannot be eliminated without entering the space.
2. Continuous forced-air ventilation is required for the entire duration of the work being performed inside the space.
3. Atmospheric testing within the space
